WHO AM I

**Visual artist with the thirst for
Visual harmony.**

With 6 years of industry experience, I bring a distinct visual language to the world of cinematography. Driven by a thirst for aesthetic harmony, I craft images that evoke emotion, spark imagination, and elevate the narrative.

My approach is rooted in expressionist cinematography, where the camera whispers subtle truths and screams bold statements when the story demands. I believe in empowering the director's vision while injecting my own creative DNA.

“VAANIL THEDINEN” is a Tamil mini series with a total duration of **1 hour 20 mins**. The project is currently streaming on **AHA** ott. The trailer cut of the series is attached to the portfolio.
